märklin
my world

Welcome to the World of Märklin my world!

The **Märklin my world** world of railroading offers an age-appropriate entry into the world of railroading with the proven **Märklin** quality. The locomotives and cars are designed for children, are easy to handle, and offer all kinds of play fun right from the start.

The extensive assortment of track and accessories offers endless creative possibilities for getting involved in the world of railroading and experiencing reality in a reduced size! The **Märklin my world** trains are built in H0 Gauge to a scale of 1:87 and they can even be run on Dad or Granddad's model railroad layout.

Light Function

All of the trains are equipped with controllable lights on the front.

Sound Function

All of the trains are equipped with sound functions!

Removable Roof

The roof can be removed on these cars.

H0 Scale /1:87

All of the trains are H0 Gauge (16 mm / 5/8") / 1:87 and therefore also usable on all H0 layouts!

Water spray function

Manually operated water spray.

Rechargeable Battery

Operation: These trains are equipped with a rechargeable battery and a USB charging cable.

Battery Operation

These trains are battery operated.

Magnet Couplers

Magnet couplers designed for children on all of the locomotives and cars.

Steaming Smokestack

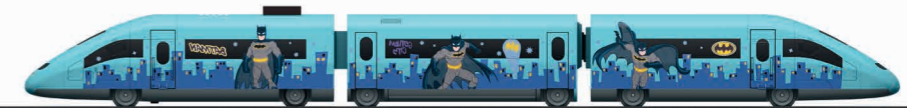

Steam generator based on water.

Action and Adventure with Batman!

Starting now, the Batmobile stays in the garage. Batman hunts villains and rogues by train. To get to the right spot at the right time and always fast, this super hero races through your playroom with an ICE 3 in the special Batman design. There the bad guys should get ready for trouble.

29345 „Batman“ Starter Set

- Exciting train design from the world of Batman and Gotham City
- Great play fun with the Märklin my world elevated railroad and playing on 2 levels
- Train includes light and sound functions
- Operation easy for children thanks to the Märklin Power Control Stick
- Easy coupling of cars together with magnetic couplers
- Sturdy plastic track designed for children for quick setup and takedown– even on the floor

On two levels through the city!

Your train does long runs with this additional track and pillars. In no time at all the blocks are set up and you are zipping on a large curve again up to the next stop.

The ideal ramp for big grades.

23302 Elevated Railroad Plastic Track Extension Set

- Large extension set 24 sections of track and 6 adapter blocks and 48 blocks for elevated railroad pillars.
- Ideal add-on for the Batman starter set (Item No. 29345).
- Easy setup.

Add the „Batman“ starter set (item number 29345) and the „Building Block Set for Elevated Railroad Grades“ (item number 72221) and you will have an impressive play world that will thrill you.

For the mega adventure – elevated Railroad

Track layout 29307 + 23302

A Really Big Railroad Bridge!

This bridge is quickly set up with its 4 sturdy pillars and allows your elevated railroad to hurtle across broad valleys. Build your play world with roads, rivers, or lakes. With your new big bridge, your train will zoom across them and provide endless play.

72218 Building Block Set Elevated Railroad Bridge

- Large bridge set with 37 pieces.
- Optimal add-on for the theme play world „Batman“.
- Easy and fast setup.

72221 Building Block Set for Elevated Railroad Grades

- Big building block set with 86 pieces.
- Easy and fast way to build an elevated railroad.
- Ideal add-on for the my world Elevated Railroad products.

So that every Märklin my world starter set becomes an elevated railroad!

For the mega adventure – elevated Railroad

4 adapter blocks 32 blocks 1x

14 adapter blocks 72 blocks

Add the „Batman“ starter set (item number 29345) and the „Elevated Railroad“ plastic track extension set (item number 23302) and you will have an impressive theme play world.

The Powerful Logistics Pro!

The ship is at anchor in the harbor and is waiting for your load. Whether it is autos or containers: Thanks to the powerful „Vectron“ electric locomotive, you transport your freight with the freight train fast punctually to the loading station. The ocean giant has hardly reached its destination, and your freight train is bringing all of the goods for the final destination.

29342 „Harbor Logistics“ Starter Set

- Operation easy as child's play thanks to the Märklin Power Control Stick
- Fast recharging with the rechargeable battery and the USB charging cable
- 3-part train with a length approximately 55 cm / 21-5/8"
- Modern electric locomotive with different sounds and lights
- Sheet of stickers with different labels for the locomotive
- Containers for loading
- Auto transport car with a hinged loading ramp
- Autos for additional play options

190 x 85 cm / 75" x 33"

The set includes plastic track for a large oval of track with turnouts and a siding for play fun right from the start.

Märklin Power Control Stick – ideal for a child's hands

SEA LOGISTICS

SEA FREIGHT

More Track, More Fun!

If you would like to run on more and different routes, you can expand this starter set right away with the 23400 track extension set.

72223 Freight Ship and Harbor Crane

- Freight ship includes many loading options.
- Freight ship will float, such as for playing in the bathtub, plus two small rescue boats for spraying water.
- Harbor station includes a crane as a central play element.
- Truck with a container trailer included.
- Maximum play fun from a plug-together kit made for children and including a variety of play options.
- Harbor station is compatible with the Majorette Creatix road system – providing many additional play options.

Out into the Wide World

Quite a bit going on in the harbor. New freight reaches your loading station by the minute. Trucks drive directly into the hold of the freight ship using a ramp. The freight trains are unloaded using the massive crane. It lifts even the heaviest containers from a car and stows them precisely in the ship's hold. Everything on board? Well, cast off the lines!

The freight ship and harbor station with a crane are the ideal add-on for the 29342 „Harbor Logistics“ starter set.

There's a Lot to Do in the Freight Loading Station!

Put on your work helmet and warning vest because today you are the load foreman in your child's room! Everything goes smoothly with your loading terminal. Whether it's automobiles or overseas containers, everything is quickly loaded and unloaded. The freight train can then leave soon because the ship in the harbor cannot wait!

72211 Freight Loading Station

- Playing on two levels.
- Rotating crane with a hoist and magnet for loading containers.
- Loading ramp with a gate for autos.
- Silo for loading freight.
- Model automobile included.

44110 Auto Transport Car

- Two model automobiles included.
- Ramp can be folded.
- 3-part set approximately 19 cm / 7-1/2" long.

72216 Airport with Light and Sound Function

- Complete airport as a kit.
- Tower includes a light.
- Many special functions.
- Arrival terminal for the Airport Express.
- Up and down ramps for toy autos.

My Airport! An impressive play world comes into being together with the „Airport Express Elevated Railroad“ (Item No. 29307) that will thrill you.

Large play set including an airplane

1x 3x

44117 Airport Jettainer Car Set

- Two freight cars
- 8 removable „Jettainers“
- „Jettainers“ can be opened and loaded
- 10-part set

For a mega adventure – an airport

Can be used to expand the my world „Airport“ theme world with the 29307 „Airport Express - Elevated Railroad“ starter set and the 72216 Airport Building.

Big Construction Site

There's shoveling, sawing, hammering, and something being loaded or loaded everywhere here. Your power shovel runs into position and the construction site train is already pushing around the curve with new cement and sand. The horn on your locomotive sounds and all of the construction workers know what needs to be done.

Watch the set in action:

More Track, More Fun!

You can expand this starter set right away with the 23400 track extension set if you want to run your construction site train on more and different routes.

29346 „Construction Site“ Starter Set

- Operation easy for children to handle thanks to the Märklin Power Control Stick.
- Quick charging of the locomotive with rechargeable battery technology and a USB charging cable.
- Exciting construction site sounds and lights included.
- Working freight cars for loading and unloading.
- Cement mixing car with a rotating container that can be opened, including little balls as a load.
- Construction site vehicle included.
- 4-part train 48 cm / 18-7/84" long.
- Train goes with the „Construction Site“ theme world.

For play fun right from the start, this set has 20 sections of plastic track and a track bumper, a powerful construction site locomotive, a cement mixer, two loadable freight cars, and a power shovel. The set also has a USB charging cable and the necessary batteries in addition to the Märklin Power Control Stick.

7222 Construction Site Station

- Complete construction site station as a kit.
- Different options for setup.
- Big construction site crane that can be rotated.
- Construction site walls with windows to be moved.
- Construction site tunnel.
- The construction site train can come in on two levels.
- Entire set in a cool construction site look.
- Many other play functions.
- Construction site vehicle also included.

Big Construction Site

As a crane operator, you have a view of everything and see how you must place everything exactly. With the long crane boom and the strong gripping clamps, you can grab everything. There are still heavy wall elements, when it is announced that the construction site train is arriving with new cement and sand to be unloaded.

For the
mega adventure
- a construction
site

The big crane has to be here!
Together with the „Construction Site Train“ starter set (29346) and the construction site crane car that can be rotated (44118), the result is an impressive play world that will thrill children.

There is a lot to do at the construction site

Put on your safety hat and become familiar with the crane car. Today a lot of rock is needed in a new building section of the big construction site. Extend the load supports, because now you are the boss at the loading station. Using the crane, the empty load box is swung over to be filled.

For the mega adventure - a construction site

44118 Crane Car

- Crane can be turned and includes hand cranks and a magnet.
- Magnetic load box included for setting down and raising again.
- 4 sturdy load supports for stabilizing operations.
- Crane boom and load supports can be folded in for transport of the crane.

For extra play fun when loading and unloading

In addition to the load box, the magnetic containers from the entire my world assortment can also be loaded and unloaded.

Together with the construction site train (29346), you can load and transport everything possible. Load your construction site cars and then off you go to the other side of your construction site.

By Steam between Meadows and Pastures

Your animals want to go to the pasture, your meadows need to be watered, and there is a lot to do on the farm. As a farm pro, you simply fire up your steam locomotive and transport cows and pigs with the livestock car. The water gets directly to your rolling fields with the tank car. For shorter runs, you take the tractor and enjoy the country idylls.

72212 Farm

- Maximum play fun with 4 different ways to set up the farm
- Creative playing
- Farm with animal figures, stalls, rolls of hay, and a feed silo for loading freight cars

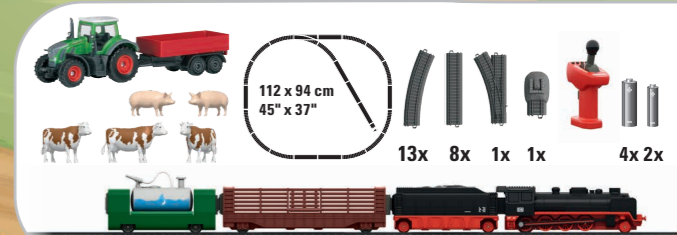

**Tractor and
animal figures
included**

29344 „Farm“ Starter Set

- Battery-operated steam locomotive with a tender, a headlight, steam, and sound functions.
- Livestock car with an unloading ramp for the animals included with the set.
- Tank car with a spraying function.
- Cold water steam using a vaporizer - safe and made for children.
- Connecting cars together is as easy as child's play with the magnetic couplers.
- Operation easy for children thanks to the Märklin Power Control Stick.
- Sturdy plastic track designed for children for quick setup and takedown – even on the floor.
- Batteries and accessories for added play value included.

**Locomotive
with a smoke-
stack that
steams**

Important! Here comes the fire station and the water being sprayed.

The fire department train comes hurtling around the curve with a loud „tattoo taaa“ and you start putting out the fire with the water spray. It's a good thing that your fire station train has the water tank right on board. Now, it's all about spraying water. The helicopter is already for use at the end of the train – it can start immediately and lift off for a rescue.

For a mega adventure – a fire station

29340 „Fire Department“ Starter Set

- Fire station train with fire station alarm and fire station siren.
- Fast charging with rechargeable battery and USB charging cable.
- Operation as easy as child's play thanks to the Märklin Power Control Stick.
- One car with a tank and water spray.
- Container for loading and unloading.
- Additional helicopter as a load.
- Additional helicopter as a load.
- Complete set in a fire department look.
- Sturdy and operated with rechargeable battery.

Sound functions:
Fire station alarm
Fire station siren
Horn

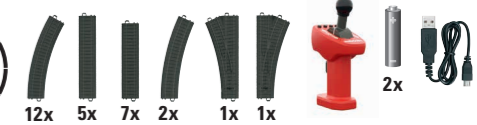

Watch the set in action:

Märklin Power Control Stick – ideal for a child's hands

190 x 76 cm / 75" x 30"

More Track, More Fun!

If you would like to run on still more different routes with your fire station train, you can expand this starter set immediately with the 23400 track extension set.

This set has 28 plastic pieces of track, a car with a water spray, a loadable container, and a helicopter for play fun right from the start. The set also includes a hand controller with three speed levels for forward and reverse.

72219 Fire Station

- Complete fire station as a kit.
- Different options for building the kit.
- Fire station tower with light and sound.
- Helicopter landing pad.
- Elevator in the fire station tower.
- Vehicle garage for releasing the fire station vehicles.
- Many additional play functions.
- Fire station vehicle also included.

Welcome to the Fire Station.

Playing will keep on going with this two-story fire station. The fire department train has just rolled in and has to be refilled with water, since the alarm siren is already sounding on the fire station tower. Your fire trucks are racing out of the garage right now. Press the „release button“ and it happens so quickly you can go to the next fire.

A big play set including a fire station vehicle

For a mega adventure – a fire station

My Fire Station!
An impressive theme play world that will thrill children results from combining this with the „Fire Department“ starter set (item no. 29340).

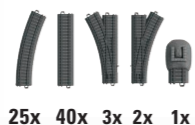

One Set – Twice the Fun!

There is intense activity on the rails. The LINT commuter train is picking up your passengers directly at the station platform. At the same time, your freight train is transporting all kinds of freight with its powerful „Vectron“ electric locomotive through the tunnel to the next logistics center. A railroad crossing is of course also there for the safety of traffic on the road. Your trains become real attention getters with the stickers included with the set!

märklin
my world

29343 Premium Starter Set with 2 Trains

- Double the fun with extensive accessories for a joint, extended play experience
- Battery operated trains with light and sound functions
- Fast charging with rechargeable batteries and a USB charging cable
- Operating the trains easy as child's play thanks to the Märklin Power Control Stick
- Containers for loading
- Large track layout of sturdy plastic track designed for children for quick setup and takedown

274 x 176 cm / 109" x 70"

Still More Fun with the ICE 3

You're ready for a scorching fast trip. You already have your finger on the button of your Märklin Power Control Stick. Before the departure, you assure yourself that all of the passengers have found their seat. Everything ready? OK! Let's go!

Sturdy tough plastic track is included in this set for play fun right from the start.

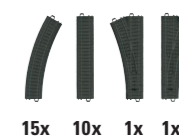

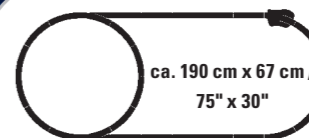

29430 „ICE 3“ Starter Set

- Operation easy as child's play thanks to the Märklin Power Control Stick
- 5-part train with a length approximately 63 cm
- Different sounds and lights included
