E

THE FIRST STEP IS EASY:

With Märklin Start up, children get started in the exciting world of model trains at ages six and above.

Here everything runs as you want it – are you keen for a heavy steam locomotive or a modern ICE? Would you like to load containers, go with a combine to the harvest, send famous film stars off by rail, or put out fires with the fire department? How would it be to build a train with great light and sound effects out of building blocks? You design the rail line yourself and decide what happens on it.

One successful adventure follows the next – because it has never been so easy to get started in the world of model trains!

WHOOOSH!

BRAVE

36656 Super Heroes Diesel Locomotive

Class 285 diesel locomotive from the TRAXX type program.

Model: The model is a class 285 diesel locomotive in a great design with different super heroes. The locomotive is constructed of metal with many built-in details. It can be controlled in digital operation and includes light and sound functions. The triple headlights change over with the direction of travel and will work in conventional operation. Warm white LEDs are used for lighting. Two sound functions independent of the locomotive's speed are included to go with the super hero characters. The locomotive has a digital decoder. One powered axle has traction tires for optimal pulling power. Length over the buffers 22 cm / 8-5/8".

- Highlights:**
- Diesel locomotive in a unique design with different super heroes.
 - Locomotive constructed of metal, can be controlled digitally, and includes light and sound functions.
 - Warm white LEDs for lighting.

Exemplary presentation/subject to approval by licensor.

All of the information about the Märklin Power Control Stick can be found on pages 26 and 27.

"Jim Button and the Wild 13"

29199 "Jim Button and the Wild 13" Starter Set

Once again, Jim Button and Lukas the locomotive engineer with their locomotives Emma and Molly are going on a big trip. They have received the order from King Alfons, the Quarter before Twelfth, to bring the illusionary giant Mr. Tur Tur to Lummerland. The two locomotive engineers do not suspect that the rough-and-tumble pirates of the Wild 13 are on their trail ...

Model: The big play set all about the adventures of Jim Button, Lukas, and their two locomotives Emma and Molly. Equipped with light and sound, the four adventurers are going on a joint adventure trip into the unknown. With the Märklin Power Control Stick, everything works at the press of a button.

Get on board with Jim and Lukas and the exciting trip begins...

Contained in the set: Emma steam locomotive with Jim Button, Lukas, and Molly as toy figures, a complete track setup of 112 x 76 cm / 45" x 30", a switched mode power pack, and the Märklin Power Control Stick.

Digital Functions	CU	MS	MS 2	CSI	CSI-3
Emma with a headlight	█	█	█	█	█
Running sounds	█	█	█	█	█
Dialog of Jim and Lukas	█	█	█	█	█

Jim Button and the Wild 13 from the movie of the same name based on the story by Michael Ende.

12 x 2 x 1 x 1 x

- Highlights:**
- Locomotive ideal for playing
 - Roof can be removed
 - Light and sound included
 - Jim Button, Lukas, and the small Molly as toy figures
 - Märklin Power Control Stick included
 - C Track layout for easy setup and takedown.

Going backpacking with the little basket on the trip

"Jim Button and the Wild 13"

44821 "Different Countries" Freight Car Set

The Wild 13 have stolen Molly. Jim, Lukas, and Emma immediately set off to find this small locomotive. Their dangerous trips takes them via Mandala, the great Gurumusch Magnet Cliffs, and the Mirror Desert up to Sturmauge Castle that is located in the legendary "Land that may not be". At the end, Jim finds the land of his forefathers called "Jamballa" ...

Model: Couple the three freight cars with the three movie scenes to Emma and experience the great story about Jim Button and Lukas the locomotive engineer. All three cars are imprinted with great themes from the movie.

Highlights:

- All cars include a great theme from the movie.
- Relex couplers for fast and easy coupling.

Each car comes in a unique design

These three freight cars are an ideal add-on to the "Jim Button and the Wild 13" starter set and to the entire theme world of "Jim Button".

44822 "Treasure of the Wild 13" Pirate's Freight Car Set

The "Wild 13" are the most horrible pirates of all the seven seas. Their home is the "Land that may not be". You can only get there through a dangerous storm. Fortunately, the pirates understand sailing like no other. Jim follows them to their cave and frees his friends with the help of a trick.

Highlights:

- Two dump cars loaded with the treasure of the Wild 13.
- A pirate's eye patch included.
- Relex couplers for fast and easy coupling.

Model: The friends find the immense treasure of the Wild 13. There Jim can also solve the secret of his origin.

These two dump cars are an ideal add-on to the "Jim Button and the Wild 13" starter set and to the entire theme world of "Jim Button".

44819 "Marine Lights" Freight Car – Magnetic Power Is Great!

The small mermaid Sursulapitschi asks Jim, Lukas, and the two locomotives Emma and Molly to turn the expired marine lights back on. The four adventurers do a detour to the large Magnet Cliff in the Barbarian Sea. There the secret of the great sea king Gurumusch awaits them.

Highlights:

- Glowing sea waves as a load.
- Relex couplers for fast and easy coupling.

Model: Solve with Lukas and Jim the secret of the Gurumusch Magnet Cliff and make the sea light up again.

© (2021): Rat Pack Filmproduktion GmbH / Warner Bros. Entertainment GmbH
www.jimknopf.de

44815 "Lummer Land" Freight Car Set

Jim, Lukas, and Emma have left Lummer Land to look for Mr. Tur Tur in the Mirror Desert. Mrs. Waas, King Alfons, and Mr. Ärmel are very worried about their friends. They know after all what dangers lie in wait out there! Will Jim, Lukas, Emma, and Molly come back home again safe and sound?

Model: Couple the three gondolas with the movie characters King Alfons, Mrs. Waas, and Mr. Ärmel to Emma and take them along on your trip. All three cars have individual image imprinting and each has a cutout sheet.

Highlights:

- All of the cars include image imprinting to go with the movie.
- Each car includes a cutout sheet of the 3 movie characters.
- Relex couplers for fast and easy coupling.

44816 "Mandala" Freight Car Set

The Mirror Desert is a dangerous place. Jim, Lukas, and Emma must not only brave sand and heat but also the Fata Morgana, who wants to lure them to their doom with her illusions. Fortunately, Mr. Tur Tur is still there, a friendly fellow who looks as big as a giant in the distance but gets smaller and smaller the closer you come to him.

Model: Couple the three gondolas to Emma and take Ping Pong, Princess Li Si, and Mr. Tur Tur along on your trip. All three cars have individual image imprinting and the cutout sheets provide even more play fun.

Highlights:

- All of the cars include image imprinting to go with the movie.
- Each car includes a cutout sheet of the 3 movie characters.
- Relex couplers for fast and easy coupling.

44817 "Dragon City" Freight Car Set

Model: Couple the three gondolas with the movie characters Nepomuk, Mrs. Mahlzahl, and the Wild 13 to Emma and take them along on your trip. All three cars have individual image imprinting and each has a cutout sheet. Nepomuk's car is filled with cooled down lava.

Highlights:

- All of the cars include image imprinting to go with the movie.
- Each car includes a cutout sheet of the 3 movie characters.
- Cooled down lava rock included that can be removed.
- Relex couplers for fast and easy coupling.

44818 "Lava Rock" Freight Car

Model: Ignite Nepomuk's volcano with Lukas' help! The gondola waits hot and steaming with glowing lava to be transported away. It's good that Emma is so powerful and can take it along right away.

Highlights:

- Lava load glows.
- No turning on and off: Lava is always glowing.
- Relex couplers for fast and easy coupling.

72217 "Jim Button" Play Mat

Model: Play mat with all of the stations of the movie as a clear illustrated path from Start to the return to Lummer Land. Play mat size 130 x 150 cm / 52" x 59".

Highlights:

- Colorful play mat with many ideas for playing.
- Goes with the 29179 and 29199 starter sets.

72786 3D Puzzle "Lummerland"

This puzzle consists of 87 pieces and has the following dimensions when completely built: Approximately 65 cm long / 25-5/8" x 27cm / 10-5/8" wide x 21 cm / 8-1/4" high. This puzzle is not in 1:87 scale and is therefore not suitable to lay C Track on it.

Highlights:

- Ideal in combination with the "Jim Button" play mat.
- Lummer Land, the small island with two mountains, thrills children and provides a great play adventure with the theme world "Jim Button and Lukas the Locomotive Engineer".

WORLD OF FARMING

Plowing, fertilizing, and mowing the pasture all around – the field is waiting to be worked. Our farmer has the good fortune that your rail line runs right past his field. Let's tackle it!

power FEATURES

MÄRKLIN POWER CONTROL STICK

THE WHOLE WORLD OF RAILROADING IN YOUR HAND

Rugged remote control like a joystick, but without a cable: The Märklin Power Control Stick is best held in your hand. How fast it goes forwards or backwards is determined by you with the lever – exactly like the real life prototype.

On speed, direction of travel, lights, or sounds – you determine what happens. The Power Control Stick controls up to four trains. Everything thus stays manageable, even if more traffic is underway.

Functions

The IR controller can activate 5 digital functions on a locomotive.

Märklin Power Control Stick Playing made easy:

- More reliable, a firm grip, and easy operation of functions.
- Free movement thanks to infrared technology.
- Controls up to 4 trains at the same time.
- Looks like the controls in real life.

In this Märklin how-to video we show you the operation of the Märklin Power Control Stick!

STEAM LOCOMOTIVES

In the Wild West, they were on tour in the past as much as in the Erzgebirge Region:

Steam locomotives even today still have something magic about them. It's no wonder that even apprentice wizards go to school with them. Real steam locomotives feed eagerly on coal to bring their boiler up to pressure. The inside of the Märklin locomotives however hides the latest electronics.

märklin START UP

- 1 **30000 Class 89.0 Tank Locomotive**
 - The Märklin classic for many years!
 - Small and powerful, all axles driven from the motor.
- 2 **36871 Tank Locomotive**
 - A locomotive with prototypical acceleration and braking.
- 3 **36321 Tank Locomotive**
 - Especially powerful because all 4 axles are powered from the motor.
- 4 **36741 Class T 12 Tank Locomotive**
 - A steam locomotive with many prototypical elements and an extraordinary paint scheme.
- 5 **36740 Class 74 Tank Locomotive**
 - A locomotive with many prototypical elements and headlights.

FREIGHT CARS

The longer the trains, the shorter the traffic jams:

With freight trains, you move deliveries from the road to the rails and thus relieve the burden on the freeway. Your freight cars from Märklin Start up transport sand and coal just as easily as oil, logs, or autos. Would you like to refrigerate food or perhaps even celebrate your birthday? Simply put your own wish train together.

C TRACKS

C Track

Märklin C Track combine ruggedness, electrically reliable connections, and prototypical looks in an ideal way. The C Track system can be expanded as you like and with special adapter tracks, it can even be combined with old track systems. The plug-together connections allow you to set up and take down the track again in a jiffy.

These features make C Track the ideal track for you, for beginners, and for demanding advanced model railroaders. You will never need another track!

This makes C Track so unique:

- Prototypical looks with ballast, ties, and metal rails
- Electrical operating reliability thanks to the proven center conductor
- Extremely sturdy click connection for fast setup and takedown
- Rugged material, which even allows the track to be laid on the floor
- A lot of room in the track for concealed installation of wires, mechanisms, etc.
- Can be expanded at any time with decoders, mechanisms, and other function tracks
- Current can be fed at any section of track
- All Märklin H0 models will work on C Track
- The well thought out geometry needs only a few track sections for beautiful rail lines

There are special adapter tracks at your specialty dealer for combining C Track with the old M Track from Grandpa or the classic K Track.

The Track for Building and Playing

The Plug-In Connection with the “Click” Set Up with Simple Hand Movements Sturdy and Long-Lasting

01 The Märklin H0 System

Märklin's track systems can be combined with each other at any time thanks to adapter tracks. The functionally reliable center conductor operation and a common ground in both running rails has always been kept and it enables great rail lines without the effort of complicated circuits (such as for reverse loop and wye tracks).

02 Perfect Connections

The mechanical and electrical connection of two sections of C Track is invisible from outside. The rail line thereby works as if it were continuous, just like the real life prototype. Special rail joiners are not needed.

03 Invisible Strengths

Thanks to this sturdy click connection on the underside of the track, the geometry of the rail line can be maintained with precision, without having to screw down the track. This means it can be set up and taken down again at any time. Everywhere!

04 Multi-Purpose Space

The roadbed (underside of the track) offers a lot of space for installation of electric turnout mechanisms or decoders, for laying wire, and much more. All of this is totally invisible from outside.

- For expanding the small C Track starter set to include a passing siding.

- For expanding the C Track starter sets to include a passing siding with curved turnouts.

- For expanding the C Track starter sets to include storage sidings and a yard lead.

C TRACKS

20188
Straight C Track
• 188.3 mm / 7-13/32".
Content: 4 pieces.a

20360
Straight C Track
• 360 mm / 14-3/16".
Content: 2 pieces.

20224
Curved C Track
• R2 = 437.5 mm / 17-1/4" / 24.3° (turnout branch).
Content: 1 piece.

20977
C Track Bumper
• 82.5 mm / 3-4/16".
Content: 1 piece.

20099
Straight Track Set
• Track set consisting of 4 no. 24094 straight tracks (each 94.2 mm / 3-11/16" long) and 2 no. 24077 straight tracks (each 77.5 mm / 3-1/16" long).

20299
Curved Track Set
• Track set consisting of 4 no. 24224 curved track (turnout branch) and 2 no. 24206 curved track.

20130
Curved C Track (R1)
• R1 = 360 mm / 14-3/16" / 30°. Content: 3 pieces.

20330
Curved C Track (R3)
• R3 = 515 mm / 20-1/4" / 30°. Content: 3 pieces.

20230
Curved C Track (R2)
• R2 = 437.5 mm / 17-1/4" / 30°. Content: 3 pieces.

20611
Left Turnout
• 1 left turnout with a manual hand lever.
• 188.3 mm / 7-13/32" / R2 = 437.5 mm / 17-1/4" / 24.3°. Can be retrofitted with the 74492 electric turnout mechanism.

20997
Uncoupler Track
• 94.2 mm / 3-11/16".
• Content: 1 piece.
• This is an uncoupler track for manual and electric uncoupling. The electric operation can be done only with the 72752 control box and the cable included with this track.

20671
Left Curved Turnout
• 1 left curved turnout with a manual hand lever.
• Inner curve: R1 = 360 mm / 14-3/16" / 30°. Outer curve: 30° with the parallel curve spacing of 77.5 mm / 3-1/16".
• Can be retrofitted with the 74492 electric turnout mechanism.

20612
Right Turnout
• 1 right turnout with a manual hand lever.
• 188.3 mm / 7-13/32" / R2 = 437.5 mm / 17-1/4" / 24.3°. Can be retrofitted with the 74492 electric turnout mechanism.

20672
Right Curved Turnout
• 1 right curved turnout with a manual hand lever.
• Inner curve: R1 = 360 mm / 14-3/16" / 30°. Outer curve: 30° with the parallel curve spacing of 77.5 mm / 3-1/16". Can be retrofitted with the 74492 electric turnout mechanism.

- 71053**
Extension Wire (3-conductor)
• For connections between the 74492 turnout mechanism and the 72752 control box.
• Length 1.80 m / 71".

- 72752**
Turnout Control Box

- 74492**
Electric Turnout Mechanism
This is a kit for converting C Track turnouts. It has a double solenoid mechanism with end shut-off contacts. It can be operated from a 72752 turnout control box with a feedback function or from a turnout installation Decoder1. This electric mechanism can be installed and connected on turnouts very easily without special tools. The mechanism sits hidden in the roadbed; below-baseboard mounting is not required. It is encapsulated against dirt and is protected against overloads with the end shut-off contacts. The mechanism can be controlled from the 72752 turnout control box. The hand lever can be left on the turnout for manual control.

Digital models with full sound and an excellent value for the money

N

36083 Class 280 Diesel Locomotive
 Prototype: German Federal Railroad (DB) class 280 diesel locomotive with diesel hydraulic drive and universal joint drive shaft power transmission. The locomotive looks as it did at the beginning of the Seventies.

1:1

36636 Class 187 Electric Locomotive
 Prototype: German Railroad, Inc. (DB AG) class 187.0 electric locomotive without flex panels. Built by Bombardier as a regular production locomotive from the TRAXX 3 type program. Road number 187 131-8. The locomotive looks as it did in 2019.

1:1

N

37244 Class Di5 Diesel Locomotive
 Prototype: Norwegian State Railways (NSB) class Di5 diesel switch engine. Diesel hydraulic drive with a jackshaft. Road number Di5 870. The locomotive looks as it did around 1988.

1:1

36244 Class 24 Steam Locomotive with a Tender
 Prototype: German Federal Railroad (DB) class 24 steam passenger locomotive with a tender. Standard design locomotive with Wagner smoke deflectors. Locomotive road number 24 044. The locomotive looks as it did around 1957.

1:1

29060 „Era V Freight Train“ Digital Starter Set. 230 Volts
 Prototype: German Railroad, Inc. (DB AG) class 216 diesel locomotive in „Orient Red“ paint scheme, type Rlms low side car, and type Eaos 106 gondola.

Digital Starter Set!

1:1

All in one set!

LGB - The Garden Railway

70503 Construction Site Train Starter Set.s

This starter set contains a construction site train consisting of a tank locomotive, a low side car, and a dump car. The locomotive has a powerful motor and a lighted headlight. The stickers included with this set can be used to decorate the locomotive and both cars. The set also has a complete circle of track, a power supply for 230 volts, and a locomotive controller. Train length 68 cm / 26-3/4".

Set it up together and play, regardless of the weather.

Maximum play fun at a sensationally low price!

It works a lot!
Our sturdy low side car.

Locomotive with a headlight

LGB track sections are easy to lay, whether in a circle, with turnouts, or at the end of the track with a track bumper. The accessory program has a lot to offer.

1:1

42430 Dump Car, Red

Dump cars were used in large numbers in quarries and mines. They were used to carry sand, clay, coal, or ore. The LGB model reproduces a typical dump car. This model can be used for Eras II to V. Length over the buffers 17 cm / 6-11/16".

1:1

40043 Crane Car

This is a model of a crane car as used mostly for construction work for railroad installations and for track. The crane boom and hook can be raised and lowered by means of hand cranks. The crane body can be rotated. Length over the buffers 25 cm / 9-7/8".

The crane boom and hook can be raised and lowered

1:1

LGB - The Garden Railway

The perfect way to get started in the playful world of LGB
Compatible with all available peg-and-hole building blocks

90463 Building Block Train Starter Set

This starter set includes a steam locomotive, two flat cars with a building block plate and 30 building blocks. The set also includes a complete circle of track consisting of 12 curved sections of track, a locomotive controller, a power supply for 230 volts, and feeder wires. Train length 77 cm / 30-5/16".

1:1

Set includes 30 blocks

Simple and at the same time sturdy. The base plate as an ideal starting point for playing and building.

94063 Building Block Car

This is a model of a two-axle flat car. The car floor has pegs so that different superstructures can be built with the blocks of well-known manufacturers available in most toy stores. Length over the buffers 26 cm / 10-1/4".

1:1

© Gebr. Märklin & Cie. GmbH / © Westend61 / Fotolia

70403 Freight Train Starter Set

The starter set for all sorts of fun: The set includes a freight train with a „Stainz“ steam locomotive, a ballast car, and a loaded low-side car. The steam locomotive is equipped with a powerful motor, electronic steam sound, and a smoke generator. The set also includes a full circle of track (1,290 mm / 51" diameter), as well as a power supply for 230 volts, and a controller. The load for the low side car is a sample and may vary. Train length 85 cm / 33-7/16".

Jim Button and Luke the engine driver

Michael Ende
Jim Knopf & Lukas
DER LOKOMOTIVFÜHRER

© (2021): Rat Pack Filmproduktion GmbH / Warner Bros. Entertainment GmbH
www.jimknopf.de

The most famous locomotive in the world!
It lives on the Isle of Lummerland, its best friend is Jim Button, and its locomotive engineer is Lukas.
That is Emma, probably the most famous locomotive in the world. Go with Emma, Jim Button, and Lukas on a trip full of adventure.

22222 "Emma" Steam Locomotive
This is a model of the small steam locomotive in the paint and lettering for the well-known locomotive "Emma" from the film "Jim Button and Luke the engine driver". The locomotive has an authentic paint and lettering scheme. Both of the wheel sets are driven by a powerful motor. The two lamps on the front of the boiler are lighted. Length over the buffers 23 cm / 9-1/16". Toy figures of Jim Button and Lukas are included.

- The famous Emma for the first time as the paint scheme for an LGB steam locomotive.

Toy figures of Jim Button and Lukas are included.

You will find a suitable track circle set as an add-on. L19904 – www.lgb.com

LGB Christmas Starter Sets

Set it up together and play, regardless of the weather.

Locomotive with a headlight

70305 Christmas Train Starter Set

This starter set contains an old-timer train consisting of a tank locomotive and 2 passenger cars in a Christmas paint scheme. The locomotive has a powerful ball bearing mounted Bühler motor as well as a headlight and a smoke unit. The set also contains a complete circle of track, a power supply, and a locomotive controller. Train length 85 cm / 33-7/16".

1:1

Track Sets

Merry Christmas

19901 Siding Track Set
You can enlarge your LGB starter set circle into an oval with a siding for switching operations and train storage. The sturdy storage box includes:

- 1 - 12000 manual right-hand switch
- 6 - 10000 straight track sections
- 1 - 11000 curved track section
- 1 - track bumper.

19902 Station Track Set
You can enlarge your LGB starter set circle into an oval with a passing track. Two trains can pass, one train can park, cars can be switched or a locomotive can be moved from one end of the train to the other. The sturdy storage box includes:

- 1 - 12000 manual right-hand switch
- 1 - 12100 manual left-hand switch
- 9 - 10000 straight track sections
- 2 - 11000 curved track sections.
