MÄRKLIN START UP OFFERS YOU...

... this and much more!

power FEATURES

märklin
START UP

Age Information and Warnings.

WARNING! Not suitable for children under 3 years. Sharp edges and points required for operation. Danger of choking due to detachable small parts that may be swallowed. Please keep the packaging.

For adults only.

The explanation of the symbols for Märklin H0 and LGB can be found on the Web at www.maerklin.de/www.lgb.de.

THE FIRST STEP IS EASY:

With Märklin Start up, children get started in the varied world of model trains at ages six and above.

Here everything runs as you want it – are you keen for a heavy steam locomotive or a modern ICE? Would you like to load containers, go with a combine to the harvest, send famous film stars off by rail, or put out fires with the fire department? How would it be to build a train with great light and sound effects out of building blocks? You design the rail line yourself and decide what happens on it.

One successful adventure follows the next – because it has never been so easy to get started in the world of model trains!

 **6+**

Batman's Rolling Basis

The concentrated power of Batman is now coming to your model railroad! Batman hunts Super-Villains with his own train through your child's playroom. The powerful class DHG 500 diesel locomotive in the Super Heroes look pulls more than just the Batmobile on the special low side car. It also pulls the jail car for sinister super-villains such as The Joker. Batman is unbeatable with this train!

märklin

START UP

- 1 29828 „Batman“ Starter Set**
- Train in a unique and exciting Batman design
 - Rugged train – ideally designed for children ages 6 and above
 - Batman and The Joker figures included for active playing
 - The jail container can be removed and opened
 - Ergonomic Power Control Stick for controlling up to 4 locomotives
 - Freedom of movement around the layout thanks to the wireless infrared controller
 - Easy-to-set-up C Track layout

The 36656 diesel locomotive and the 44825, 44826, 44827, 44828, 44829, and 44830 freight cars are ideal as add-ons to the theme world of DC Super Heroes.

See Page 57 for explanations of the symbols.

All of the information about the Märklin Power Control Stick can be found on page 22.

WHOOOSH!

Watch the set in action:

BRAVE

Left Side

36656 Super Heroes Diesel Locomotive

Class 285 diesel locomotive from the TRAXX type program.

Model: The model is a class 285 diesel locomotive in a great design with different super heroes. The locomotive is constructed of metal with many built-in details. It can be controlled in digital operation and includes light and sound functions. The triple headlights change over with the direction of travel and will work in conventional operation. Warm white LEDs are used for lighting. Two sound functions independent of the locomotive's speed are included. The locomotive has a digital decoder. One powered axle has traction tires for optimal pulling power. Length over the buffers 22 cm / 8-5/8".

Highlights:

- Diesel locomotive in a unique design with different super heroes.
- Locomotive constructed of metal, can be controlled digitally, and includes light and sound functions.
- Warm white LEDs for lighting.

2

44827 Aqua Man Tank Car

Model: This is a tank car in a great design for the super hero Aqua Man. The tank is in an ocean blue with a glitter effect, goes with the underwater ocean world of Aqua Man. The car has RELEX couplers for fast and easy coupling. Car length 12 cm / 4-3/4". An Aqua Man toy figure made of metal is included. Size of the toy figure 4 cm / 1-9/16".

Highlights:

- Car in a unique design for the super hero Aqua Man.
- Tank in an ocean blue with a glitter effect.
- Toy figure of Aqua Man included.

Exemplary presentation.

N 44828 Wonder Woman Refrigerator Car

Model: This is a freight car in a special design for the Super Heroine Wonder Woman. The car has Relex couplers for fast and easy coupling. Length over the buffers 12 cm / 4-3/4". A Wonder Woman play figure made of metal is included. Size of the play figure is 4 cm / 1-9/16".

Highlights:

- Car in a unique design for Wonder Woman
- Wonder Woman play figure included

The ideal addition to the 29828 Batman starter set and the other Super Heroes item numbers 36656, 44825, 44826, 44827, 44829, and 44830.

Exemplary presentation.

The Divine Amazon

Wonder Woman works with courage and pride for truth and justice on your model railroad. This boxcar in a glamorous design with a golden roof, golden platforms, and the spectacular printing: Look out, bad guys! Here comes Wonder Woman!

Left Side

Right Side

44829 The Flash Container Car

Model: This is a freight car in an unusual design for the Super Hero The Flash. The car has Relex couplers for fast and easy coupling. Length over the buffers 12 cm / 4-3/4". The Flash play figure made of metal is included. Size of the play figure is 4 cm / 1-9/16".

Highlights:

- Car in a unique design for the Super Hero The Flash
- Individual details of the design glow in the dark
- The Flash play figure included

The ideal addition to the 29828 Batman starter set and the other Super Heroes item numbers 36656, 44825, 44826, 44827, 44828, and 44830.

Exemplary presentation.

The Speeding Flash

He is faster than all of the other Super Heroes, catches bullets from the air with his hand, and whirls easily through any wall. Now The Flash finally has a container car too, in which he can rest from the hunt for super-villains and store his super hero gear. The colorful design with the „Glow in the Dark“ fluorescent color makes this car an attraction on any model railroad.

licensor.

The Green Wizard

With his magic green ring and endless willpower, the Green Lantern creates and controls every object, which can only be imagined. The Green Lantern has this ability thanks to a green railroad lantern, which saved his life during an accident. For that reason, his boxcar also has a green marker light with the Green Lantern's logo on the lantern as part of the exciting design.

44830 Green Lantern Boxcar

Model: This is a freight car in a great design for the Super Hero Green Lantern. The car has a pickup shoe and a lighted car lantern. It also has Relex couplers for fast and easy coupling. Length over the buffers 12 cm / 4-3/4". A Green Lantern play figure made of metal is included. Size of the play figure is 4 cm / 1-9/16".

Highlights:

- Car in a unique design for the Super Hero Green Lantern
- Lighted car lantern
- Green Lantern play figure included

The ideal addition to the 29828 Batman starter set and the other Super Heroes item numbers 36656, 44825, 44826, 44827, 44828, and 44829.

THEME WORLD OF AUTO TRANSPORT CARS

The roads are full of cars. How do they get there? Of course, the railroad brings them from the factory to the car dealer.

ALL IN ONE SET

Racing Cars

märklin

START UP

- 1 29952 Auto Transport Train Starter Set**
- Locomotive in a racing paint scheme with lights.
 - The Porsche models can drive on the ramp included with the set onto the two auto transport cars.
 - All in One Set – locomotive, freight cars included.

- 2 44952 Auto Transport Car**
- The upper platform can be lowered at one end. You can thus transport 2 of your model autos on this car.

Watch the set in action:

"Jim Button and the Wild 13"

29199 "Jim Button and the Wild 13" Starter Set

Once again, Jim Button and Lukas the locomotive engineer with their locomotives Emma and Molly are going on a big trip. They have received the order from King Alfons, the Quarter before Twelfth, to bring the illusionary giant Mr. Tur Tur to Lummerland. The two locomotive engineers do not suspect that the rough-and-tumble pirates of the Wild 13 are on their trail ...

Model: The big play set all about the adventures of Jim Button, Lukas, and their two locomotives Emma and Molly. Equipped with light and sound, the four adventurers are going on a joint adventure trip into the unknown. With the Märklin Power Control Stick, everything works at the press of a button.

Get on board with Jim and Lukas and the exciting trip begins...

Contained in the set:
Emma steam locomotive with Jim Button, Lukas, and Molly as toy figures, a complete track setup of 112 x 76 cm / 45" x 30", a switched mode power pack, and the Märklin Power Control Stick.

Digital Functions	CU	MS	MS 2	CSI	CSI-3
Emma with a headlight	█	█	█	█	█
Running sounds	█	█	█	█	█
Dialog of Jim and Lukas	█	█	█	█	█

Jim Button and the Wild 13 from the movie of the same name based on the story by Michael Ende.

12 x 2 x 1 x 1 x

Highlights:

- Locomotive ideal for playing
- Roof can be removed
- Light and sound included
- Jim Button, Lukas, and the small Molly as toy figures
- Märklin Power Control Stick included
- C Track layout for easy setup and takedown.

Watch the set in action:

Going backpacking with the little basket on the trip

"Jim Button and the Wild 13"

44821 "Different Countries" Freight Car Set

The Wild 13 have stolen Molly. Jim, Lukas, and Emma immediately set off to find this small locomotive. Their dangerous trips takes them via Mandala, the great Gurumuschi Magnet Cliffs, and the Mirror Desert up to Sturmage Castle that is located in the legendary "Land that may not be". At the end, Jim finds the land of his forefathers called "Jamballa" ...

Model: Couple the three freight cars with the three movie scenes to Emma and experience the great story about Jim Button and Lukas the locomotive engineer. All three cars are imprinted with great themes from the movie.

Highlights:

- All cars include a great theme from the movie.
- Relex couplers for fast and easy coupling.

Each car comes in a unique design

These three freight cars are an ideal add-on to the "Jim Button and the Wild 13" starter set and to the entire theme world of "Jim Button".

44822 "Treasure of the Wild 13" Pirate's Freight Car Set

The "Wild 13" are the most horrible pirates of all the seven seas. Their home is the "Land that may not be". You can only get there through a dangerous storm. Fortunately, the pirates understand sailing like no other. Jim follows them to their cave and frees his friends with the help of a trick.

Model: The friends find the immense treasure of the Wild 13. There Jim can also solve the secret of his origin.

Highlights:

- Two dump cars loaded with the treasure of the Wild 13.
- A pirate's eye patch included.
- Relex couplers for fast and easy coupling.

These two dump cars are an ideal add-on to the "Jim Button and the Wild 13" starter set and to the entire theme world of "Jim Button".

44819 "Marine Lights" Freight Car – Magnetic Power Is Great!

The small mermaid Sursulapitschi asks Jim, Lukas, and the two locomotives Emma and Molly to turn the expired marine lights back on. The four adventurers do a detour to the large Magnet Cliff in the Barbarian Sea. There the secret of the great sea king Gurumuschi awaits them.

Model: Solve with Lukas and Jim the secret of the Gurumuschi Magnet Cliff and make the sea light up again.

Highlights:

- Glowing sea waves as a load.
- Relex couplers for fast and easy coupling.

44815 "Lummer Land" Freight Car Set

Jim, Lukas, and Emma have left Lummer Land to look for Mr. Tur Tur in the Mirror Desert. Mrs. Waas, King Alfons, and Mr. Ärmel are very worried about their friends. They know after all what dangers lie in wait out there! Will Jim, Lukas, Emma, and Molly come back home again safe and sound?

Model: Couple the three gondolas with the movie characters King Alfons, Mrs. Waas, and Mr. Ärmel to Emma and take them along on your trip. All three cars have individual image imprinting and each has a cutout sheet.

Highlights:

- All of the cars include image imprinting to go with the movie.
- Each car includes a cutout sheet of the 3 movie characters.
- Relex couplers for fast and easy coupling.

44816 "Mandala" Freight Car Set

The Mirror Desert is a dangerous place. Jim, Lukas, and Emma must not only brave sand and heat but also the Fata Morgana, who wants to lure them to their doom with her illusions. Fortunately, Mr. Tur Tur is still there, a friendly fellow who looks as big as a giant in the distance but gets smaller and smaller the closer you come to him.

Model: Couple the three gondolas to Emma and take Ping Pong, Princess Li Si, and Mr. Tur Tur along on your trip. All three cars have individual image imprinting and the cutout sheets provide even more play fun.

Highlights:

- All of the cars include image imprinting to go with the movie.
- Each car includes a cutout sheet of the 3 movie characters.
- Relex couplers for fast and easy coupling.

44817 "Dragon City" Freight Car Set

Model: Couple the three gondolas with the movie characters Nepomuk, Mrs. Mahl Zahn, and the Wild 13 to Emma and take them along on your trip. All three cars have individual image imprinting and each has a cutout sheet. Nepomuk's car is filled with cooled down lava.

Highlights:

- All of the cars include image imprinting to go with the movie.
- Each car includes a cutout sheet of the 3 movie characters.
- Cooled down lava rock included that can be removed.
- Relex couplers for fast and easy coupling.

44818 "Lava Rock" Freight Car

It hisses and steams in the Land of the Thousand Volcanos. Dragons love nothing more than dirt and hot lava. On their way to the Dragon City, Jim, Lukas, and Emma encounter the small demi-dragon Nepomuk. He is very sad because no one is afraid of him and his volcano has gone dead.

Highlights:

- Lava load glows.
- No turning on and off: Lava is always glowing.
- Relex couplers for fast and easy coupling.

Model: Ignite Nepomuk's volcano with Lukas' help! The gondola waits hot and steaming with glowing lava to be transported away. It's good that Emma is so powerful and can take it along right away.

CONTAINER LOGISTICS

You deliver everything from gym shoes to toys – container ships sail across the sea around the whole world. In the harbor, you take the containers with your overhead crane: Larger than a house and with mighty power, this giant grabs the heavy containers and places them directly on the cars of your container train.

MÄRKLIN POWER CONTROL STICK

THE WHOLE WORLD OF RAILROADING IN YOUR HAND

Rugged remote control like a joystick, but without a cable: The Märklin Power Control Stick is best held in your hand. How fast it goes forwards or backwards is determined by you with the lever – exactly like the real life prototype.

On speed, direction of travel, lights, or sounds – you determine what happens. The Power Control Stick controls up to four trains. Everything thus stays manageable, even if more traffic is underway.

Märklin Power Control Stick Playing made easy:

- More reliable, a firm grip, and easy operation of functions.
- Free movement thanks to infrared technology.
- Controls up to 4 trains at the same time.
- Looks like the controls in real life.

In this Märklin how-to video we show you the operation of the Märklin Power Control Stick!

Functions

The IR controller can activate 5 digital functions on a locomotive.

STEAM LOCOMOTIVES

In the Wild West, they were on tour in the past as much as in the Erzgebirge Region:

Steam locomotives even today still have something magic about them. It's no wonder that even apprentice wizards go to school with them. Real steam locomotives feed eagerly on coal to bring their boiler up to pressure. The inside of the Märklin locomotives however hides the latest electronics.

märklin

START UP

- 30000 Class 89.0 Tank Locomotive**
 - The Märklin classic for many years!
 - Small and powerful, all axles driven from the motor.
- 36321 Tank Locomotive**
 - Especially powerful because all 4 axles are powered from the motor.
- 36740 Class 74 Tank Locomotive**
 - A locomotive with many prototypical elements and headlights.

Discover all additional information here!

- 8 40503 Intercity Express Train Cab Control Car, 2nd Class**
 - Cab control car for the modern fast passenger train, includes special light function.

FREIGHT CARS

The longer the trains, the shorter the traffic jams:

With freight trains, you move deliveries from the road to the rails and thus relieve the burden on the freeway. Your freight cars from Märklin Start up transport sand and coal just as easily as oil, logs, or autos. Would you like to refrigerate food? Simply put your own wish train together.

C TRACKS

C Track

Märklin C Track combine ruggedness, electrically reliable connections, and prototypical looks in an ideal way. The C Track system can be expanded as you like and with special adapter tracks, it can even be combined with old track systems. The plug-together connections allow you to set up and take down the track again in a jiffy.

These features make C Track the ideal track for you, for beginners, and for demanding advanced model railroaders. You will never need another track!

This makes C Track so unique:

- Prototypical looks with ballast, ties, and metal rails
- Electrical operating reliability thanks to the proven center conductor
- Extremely sturdy click connection for fast setup and takedown
- Rugged material, which even allows the track to be laid on the floor
- A lot of room in the track for concealed installation of wires, mechanisms, etc.
- Can be expanded at any time with decoders, mechanisms, and other function tracks
- Current can be fed at any section of track
- All Märklin H0 models will work on C Track
- The well thought out geometry needs only a few track sections for beautiful rail lines

There are special adapter tracks at your specialty dealer for combining C Track with the old M Track from Grandpa or the classic K Track.

The Track for Building and Playing

The Plug-In Connection with the “Click” Set Up with Simple Hand Movements Sturdy and Long-Lasting

01 The Märklin H0 System

Märklin's track systems can be combined with each other at any time thanks to adapter tracks. The functionally reliable center conductor operation and a common ground in both running rails has always been kept and it enables great rail lines without the effort of complicated circuits (such as for reverse loop and wye tracks).

02 Perfect Connections

The mechanical and electrical connection of two sections of C Track is invisible from outside. The rail line thereby works as if it were continuous, just like the real life prototype. Special rail joiners are not needed.

03 Invisible Strengths

Thanks to this sturdy click connection on the underside of the track, the geometry of the rail line can be maintained with precision, without having to screw down the track. This means it can be set up and taken down again at any time. Everywhere!

04 Multi-Purpose Space

The roadbed (underside of the track) offers a lot of space for installation of electric turnout mechanisms or decoders, for laying wire, and much more. All of this is totally invisible from outside.

• Track set consisting of 4 no. 24224 curved track (turnout branch) and 2 no. 24206 curved track to complement the turnouts

20130
Curved C Track (R1)
• R1 = 360 mm / 14-3/16" / 30°. Content: 3 pieces.

20224
Curved C Track
• R2 = 437.5 mm / 17-1/4" / 24.3° (turnout branch).
Content: 1 piece.

20330
Curved C Track (R3)
• R3 = 515 mm / 20-1/4" / 30°. Content: 3 pieces.

20230
Curved C Track (R2)
• R2 = 437.5 mm / 17-1/4" / 30°. Content: 3 pieces.

20611
Left Turnout
• 1 left turnout with a manual hand lever.
• 188.3 mm / 7-13/32" / R2 = 437.5 mm / 17-1/4" / 24.3°. Can be retrofitted with the 74492 electric turnout mechanism.

20612
Right Turnout
• 1 right turnout with a manual hand lever.
• 188.3 mm / 7-13/32" / R2 = 437.5 mm / 17-1/4" / 24.3°. Can be retrofitted with the 74492 electric turnout mechanism.

20997
Uncoupler Track
• 94.2 mm / 3-11/16".
Content: 1 piece.
• This is an uncoupler track for manual and electric uncoupling. The electric operation can be done only with the 72752 control box and the cable included with this track.

20671
Left Curved Turnout
• 1 left curved turnout with a manual hand lever.
• Inner curve: R1 = 360 mm / 14-3/16" / 30°. Outer curve: 30° with the parallel curve spacing of 77.5 mm / 3-1/16".
• Can be retrofitted with the 74492 electric turnout mechanism.

20672
Right Curved Turnout
• 1 right curved turnout with a manual hand lever.
• Inner curve: R1 = 360 mm / 14-3/16" / 30°. Outer curve: 30° with the parallel curve spacing of 77.5 mm / 3-1/16". Can be retrofitted with the 74492 electric turnout mechanism.

Turnout Control Box

- 74492**
Electric Turnout Mechanism
This is a kit for converting C Track turnouts. It has a double solenoid mechanism with end shut-off contacts. It can be operated from a 72752 turnout control box with a feedback function or from a turnout installation Decoder1. This electric mechanism can be installed and connected on turnouts very easily without special tools. The mechanism sits hidden in the roadbed; below-baseboard mounting is not required. It is encapsulated against dirt and is protected against overloads with the end shut-off contacts. The mechanism can be controlled from the 72752 turnout control box. The hand lever can be left on the turnout for manual control.

TRACK EXTENSION SETS

24900

C1 C Track Extension Set

- Contents: 2 no. 24172 straight track
1 no. 24224 curved track
1 no. 24611 left turnout
1 no. 24977 track bumper
Instructions.

- For adding a storage siding to the C Track starter sets.

24902

C Track C2 Extension Set

- Contents: 3 no. 24188 straight track
5 no. 24172 straight track
2 no. 24224 curved track
1 no. 24611 turnout
1 no. 24612 turnout and instructions.

- For expanding the small C Track starter set to include a passing siding.

24903

C Track C3 Track Extension Set

- Contents: 7 no. 24188 straight track
7 no. 24172 straight track
2 no. 24130 curved track
1 no. 24671 curved turnout
1 no. 24672 curved turnout and instructions.

- For expanding the C Track starter sets to include a passing siding with curved turnouts.

24904

C Track C4 Track Extension Set

- Contents: 4 no. 24188 straight track
4 no. 24172 straight track

Digital models to get started

37689 Class 260 Diesel Locomotive
 Prototype: German Federal Railroad (DB) class 260 diesel switch engine. Crimson basic paint scheme. Diesel-hydraulic drive with a jackshaft. Road number 260 319-9. The locomotive looks as it did starting in 1972.

36636 Class 187 Electric Locomotive
 Prototype: German Railroad, Inc. (DB AG) class 187.0 electric locomotive without flex panels. Built by Bombardier as a regular production locomotive from the TRAXX 3 type program. Road number 187 131-8. The locomotive looks as it did in 2019.

37108 Class 110.1 Electric Locomotive
 Prototype: German Federal Railroad (DB) class 110.1 electric locomotive. Includes five lamps (double lamps below). Double forced air vents with vertical fins and rounded engine room windows. Includes a continuous rain gutter. Cobalt blue / black basic paint scheme. Road number 110 263-1. The locomotive looks as it did around 1973.

36244 Class 24 Steam Locomotive with a Tender
 Prototype: German Federal Railroad (DB) class 24 steam passenger locomotive with a tender. Standard design locomotive with Wagner smoke deflectors. Locomotive road number 24 044. The locomotive looks as it did around 1957.

29074 „Era III Freight Train“ Digital Starter Set
 Prototype: German Federal Railroad (DB) class 74 tank locomotive, type Om 12 gondola, type Gr 20 boxcar, and type Rlms 56 stake car.

All in one set!

LGB - The Garden Railway

70503 Construction Site Train Starter Set

This starter set contains a construction site train consisting of a tank locomotive, a low side car, and a dump car. The locomotive has a powerful motor and a lighted headlight. The stickers included with this set can be used to decorate the locomotive and both cars. The set also has a complete circle of track, a power supply for 230 volts, and a locomotive controller. Train length 68 cm / 26-3/4".

Set it up together and play, regardless of the weather.

Maximum play fun for indoors and outdoors!

It works a lot!
A sturdy low side car.

Locomotive with a headlight

LGB track sections are easy to lay, whether in a circle, with turnouts, or at the end of the track with a track bumper. The accessory program has a lot to offer.

49501 Construction Site Extension Set

This extension set for the construction site train contains another dump car, a power shovel with a manually movable shovel, a toy figure, and a number of accessories typical for a construction site such as barriers or signs. The stickers included with this set can be used to decorate the dump car. Length of the dump car 17 cm / 6-11/16".

40043 Crane Car

This is a model of a crane car as used mostly for construction work for railroad installations and for track. The crane boom and hook can be raised and lowered by means of hand cranks. The crane body can be rotated. Length over the buffers 25 cm / 9-7/8".

The crane boom and hook can be raised and lowered

LGB - The Garden Railway

The perfect way to get started in the playful world of LGB
Compatible with all available peg-and-hole building blocks

Set includes 30 blocks

Simple and at the same time sturdy. The base plate as an ideal starting point for playing and building.

90463 Building Block Train Starter Set

This starter set includes a steam locomotive, two flat cars with a building block plate and 30 building blocks. The set also includes a complete circle of track consisting of 12 curved sections of track, a locomotive controller, a power supply for 230 volts, and feeder wires. Train length 77 cm / 30-5/16".

94063 Building Block Car

This is a model of a two-axle flat car. The car floor has pegs so that different superstructures can be built with the blocks of well-known manufacturers available in most toy stores. Length over the buffers 26 cm / 10-1/4".

Watch the set in action:

märklin

START UP

70403 Freight Train Starter Set

The starter set for all sorts of fun: The set includes a freight train with a „Stainz“ steam locomotive, a ballast car, and a loaded low-side car. The steam locomotive is equipped with a powerful motor, electronic steam sound, and a smoke generator. The set also includes a full circle of track (1,290 mm / 51" diameter), as well as a power supply for 230 volts, and a controller. The load for the low side car is a sample and may vary. Train length 85 cm / 33-7/16".

LGB Christmas Starter Sets

N 15+

70308 Christmas Train Starter Set

This starter set contains an old-timer train consisting of a tank locomotive and 2 passenger cars in a Christmas paint scheme. The locomotive has a powerful ball bearing mounted Bühler motor as well as a headlight and a smoke unit. The set also contains a complete circle of track, a power supply, and a locomotive controller. Train length 85 cm / 33-7/16".

This train can be expanded marvelously with the Christmas cars that have come out in the past.

Set it up together and play, regardless of the weather.

Locomotive with a headlight

Merry Christmas

Here is a Christmas video about the starter set.

Service and Repair

Märklin Direct Service

The authorized Märklin dealer is your contact for repairs and conversions from analog to digital. We can do conversions in our repair department in Göppingen for dealers without their own service department as well as for consumers. After the model has been examined, you will receive a cost quotation including details of the work to be done and the cost for reliable shipping. If you would personally like to drop off and pick up models in Göppingen, please see our Service Point at the Märkliseum.
